Cuba

CONNECTION • TRANSFORMATION • POSSIBILITIES

MINISTRY PARTNER INFORMATION

Cuba is a country full of challenges, but also people who continually work through the difficulties presented to them. As a Communist country, political opposition is not permitted and the country and people are highly regulated. 88% of the population are estimated to be living in extreme poverty. Yet, amidst these challenges, Cuba has a thriving church body full of wonderful followers of Jesus. Their desire is for others to come to know Him, to be a light in the darkness, and bring change to their country.

Water of Life teams partner with the **International School of Ministry (ISOM)** based in Havana, Cuba. ISOM has 150 Schools of Ministry with over 1,500 students across the island of Cuba. Through ISOM's network of dozens of churches from 29 different denominations, we partner with different churches as needs arise that a team can partner with. Opportunities may include local evangelism, encouragement of local church leaders, service projects, ministry to children, work projects, visiting an ISOM class or graduations and visiting church services.
